

FLUTING PAPER – 112 GSM

·Applications

- Used as a medium layer in 3-, 5-, and 7-ply corrugated boxes
- Suitable for light-to-medium industrial packaging requiring moderate compression strength
- Ideal for medium food products, light industrial parts, and small household appliances
- Stable performance on high-speed corrugation lines

·Key Benefits

- Adequate compression strength → reduces damage during transportation
- High flexibility → suitable for medium-speed production lines
- Good dimensional stability → prevents warping
- Uniform thickness → smooth lamination process

GSM Range	109-114 g/m ²
Burst	>300 Kpa
Cobb	40-50 (g/m ²)
RCT	>1.2 (kN/m)
CCT	>470 N
CMT	>270 N
