

TESTLINER (TLS) 125 GSM

Applications

- Used in heavy-duty multiwall corrugated boxes (3-ply or 5-ply)
- Ideal for export packaging requiring high compression strength
- Applied as outer liner for industrial packaging of home appliances, machinery, and spare parts
- Suitable for chemical, ceramic, and metal product packaging
- Perfect for long-term warehousing and logistics where durability is critical

Key Benefits

- High bursting and compression strength → suitable for heavy loads
- Excellent mechanical durability during long-distance transportation
- Good printability for export and branded boxes
- Improved moisture resistance, maintaining box integrity in variable climates
- Structural rigidity ensures box stability in stacked storage conditions

Grammage	125 ±3 g/m ²
Burst Strength	215-220 Kpa
Cobb	35-45 g/m ²
Moisture	7 ± 1 %
RCT	1.1-1.3 kN/m
